The Oracle

The Oracle is our Flagship speaker, and so it should be! with its highly refined, modern design, an eclectic use of advanced materials with beautiful textures, this speaker really is a design statement. The main Enclosure is based on an acoustically inert concrete based chamber, and set into the 21st century with anodized aluminium and state of the art sound reproduction technologies.

Blue Avocado's flagship speaker must be seen and heard to be believed.

We have created the perfect material for a Hi-fi loudspeaker, An acoustically inert chamber with internal baffling and porting systems to bring out the best in the powerful combination of drivers.

The Oracle, by Blue Avocado lets you own:

- Specifically engineered high-density concrete for acoustic precision
- Contemporary styling and unique appearance,
- Eclectic material combinations, and
- Crazy good sound quality.

The Design is highly refined by Blue Avocado's all Australian Design team. Proportion and styling derived from the modernist movement in design ensures this loudspeaker will remain a timeless, monumental piece of furniture.

Careful material selection resulted a harmonious array of colors, materials and textures, including an anodised aluminium faceplate that provide a dull reflection of its surroundings. This reflected mimicking effect introduces a sense of unity with its surroundings, and ensures that this loudspeakers striking appearance ties in seamlessly with any decor .

The sound that 'The Oracle' reproduces has a purity and beauty rarely experienced. Precision sound engineering is employed in every aspect of this loudspeaker, You'll hear things youve never heard before in music. Producing a full, rich, musically inviting sound stage the outstanding presence and impact that this loudspeaker produces ensures The Oracle is the envy of society.

"Blue Avocado stretches the relms of loudspeaker design, here a new generation of loudspeaker design has evolved, and Blue Avocado drives this evolution."
